COMPANY

Ocean Design Gallery, LLC. has long experience in the **European market**, primarily in Spain.

It has the full support of leading brands in the field of kitchen furniture. Our team of professionals oversee each project from conception, product design, to installation.

Our service and warranty both aim for one thing: complete customer satisfaction.

We are the official **United States representatives of the OB kitchen furniture factory**, which was founded in the 70s in **Spain** and presented within this catalog. Our customers benefit from products directly from manufactures without the added cost of an intermediary.

For our counter-tops we use different suppliers depending on the specifications for each project. We only choose suppliers who are committed to the latest developments in design and have an excellent international reputation:

Our commitment to care for and maintain the environment is extended throughout the life cycle of our products.

We use the latest technology for the manufacturing and processing of our products. Ensuring optimal energy efficiency, water conservation, and the recycling of residual materials.

Ocean Design Gallery has great respect for the environment.

OCEAN DESIGN GALLERY MIAMI SHOWROOM

IDENTITY

OB is located on Villafranca de Córdoba. Over 35 years ago it started as a small Carpentry manufacturing kitchen's furniture.

Today its production facilities have grown to more than **40,000 m2** covered surface.

Using customers satisfaction as its main philosophy, OB has achieved its targets and has thrived through market's changes by adaptation.

One of our brand identities is the added value to the final product, making our kitchens unique. That is how we have become a distinguished manufacturer by our quality, but easily affordable for everyone.

COMPANY MILESTONE

A reliable proof of our progress and development is our 40,000 M2 plant.

Thanks to our totally automated and robotic machinery, we can produce up to 100 kitchens per day. Our entire manufacturing process is guided and supervised by our talented technical team.

OUR TEAM

We are very proud of our staff of more than 100 employees.

S T U D I O P R O D U C T S

PRODUCTS

WOOD

We have basically two types: solid framed fronts with fiberboard and natural wood-veneered central panels, or fiberboard with MD For wood-veneered plywood.

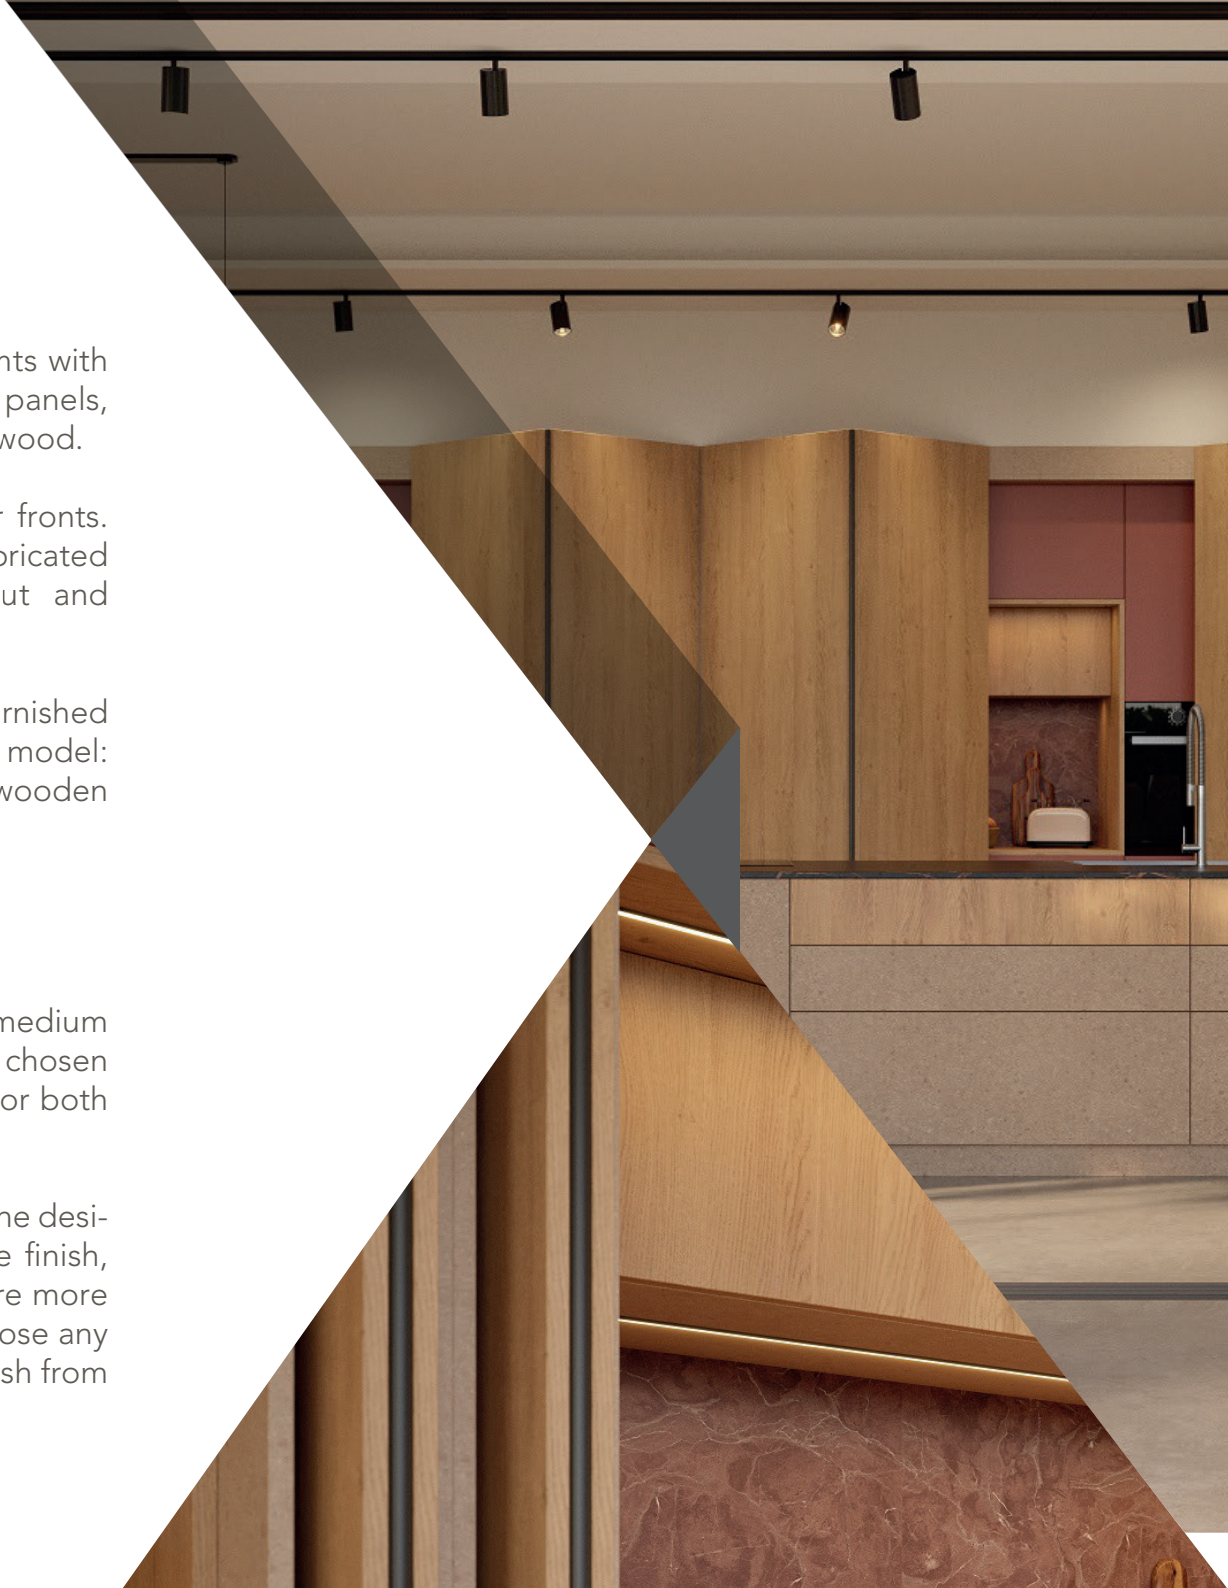

We use different types of wood to make our fronts. Most commonly used are natural and prefabricated Oak, Cherry, Walnut, Pine, Beech, Chestnut and prefabricated Teak.

The front finishes are available in painted, varnished and lacquer. Currently, depending on the model: there are more than 30 finish options for the wooden doors.

LACQUERED

We use sheets of 19 - 22mm of thickness of medium density fiber board, (MDF) depending on the chosen model with the possibility of finishing on one or both sides for the fronts.

We use up to six different processes to obtain the desired finishing, which can be: High gloss, matte finish, textured, extra matte or rubber finish. There are more than 30 standard colors, for which you can choose any finish, but you can also select any color and finish from the PAL card, subject to confirmation.

PRODUCTS

POLYMER

The thickness of the medium-density fiberboard we use to make our fronts depends on the model, but most commonly used are 18, 19 and 22mm. These are covered by a polymer foil of different designs, whose thickness may vary depending on the chosen option. The reverse is covered with white or gray 120gr/m² melamine foil.

There are up to 40 options of finishes available. Depending on the model.

LAMINATED

Low or high pressure laminates mainly on a 19mm thick fiberboard, but this may vary from 18 to 22mm thickness, Depending on the model. We can supply stratified fronts in postformed, or 4 square edges, with a choice of 2 or 4 sides edge banded. The edge detail can be either acrylic or PVC.

There are 30 different models available for each classification, Post-formed fronts are available in one finish, but 4 edge fronts have several finishes.

QUALITY

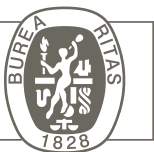

We are very committed and conscious of the environment. That is why we fulfill all rigorous European standards. All of our timber based products come from controlled forests, which guarantees a natural environment.

Being faithful to our philosophy, the satisfaction of our customers has always been our maximum priority, for that reason we have been one of the first kitchen **manufacturers in Spain** to obtain the Quality Management System certificate of ISO 9001:2008 of Bureau Veritas.

Our best Warranty has always been our own customers and the long term relationships built up with them, with major motivation on our after sales service.

That is why we have implemented a standard 5-year warranty for all OB kitchens. This peace-of-mind guarantee ensures our commitment to quality and service for both our trading partners and consumers.
